AN EXPLANATION

It was our intention that the last issue of the Magazine for March-April 1953 would be in the hands of our readers in the first week of April. But it could not be on account of some hitch at the last moment, and the issue, although released from the press according to our schedule, had to be delayed for despatching until almost the end of the month. We could not get over the difficulty in spite of our best efforts.

Secondly, we wish to mention here that we have now decided to issue the Magazine in twelve numbers, not ten. The present issue for May has, therefore, been brought out now and it is devoted exclusively for some important Headquarters Notices. The next issue for June will be a regular one and will contain about twenty-four pages matter. We expect it will reach our readers during the first week of the month.

—THE EDITORS.
